

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Results for each of the five genome-wide significant markers in ADCY3 (rs13035244), FTO (rs9922708), LCORL (rs6842303), LEP (rs10487505) and LEPR (rs2767486) for the 12 time points analysed.

File Name: Supplementary Data 2

Description: Results from cell-stratified LD score regression at each of the 12 time points analysed in addition to tissue categories for GTEx v6p and Franke Lab annotations.
