Fig. S1

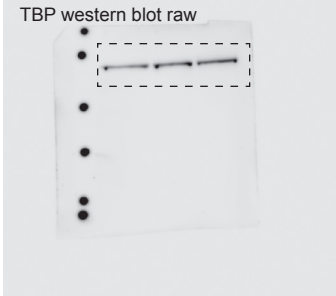

Genotyping flag-bio alleles

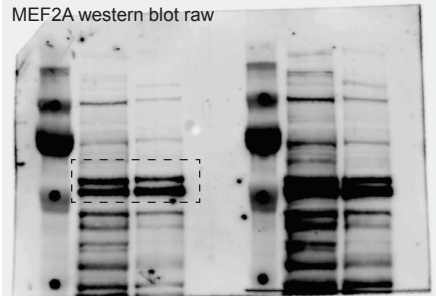

NKX2-5 western blot raw

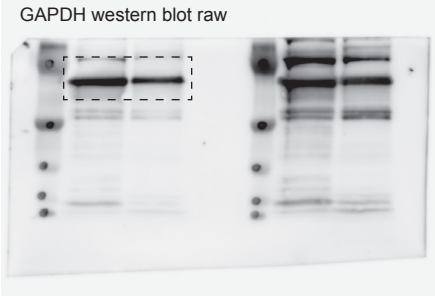

TBP western blot raw

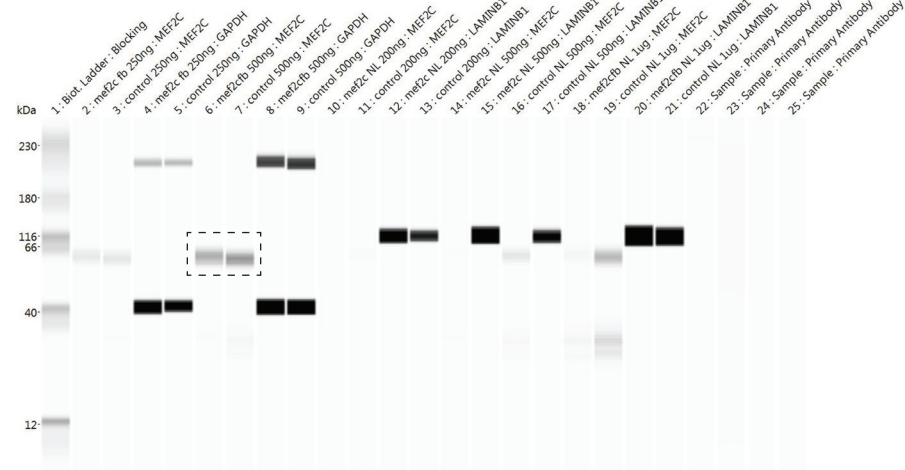

MEF2A western blot raw

GAPDH western blot raw

MEF2C protein analysis (WES Protein Simple - high exposure)

GAPDH protein analysis (WES Protein Simple - low exposure)

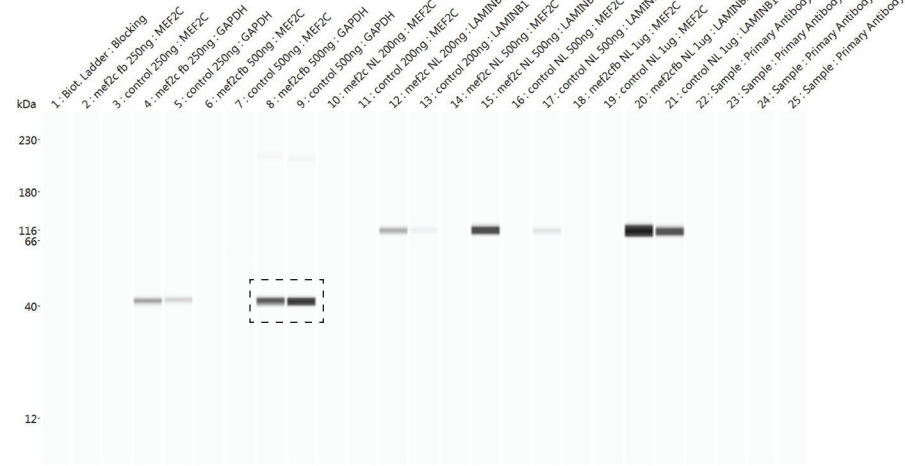

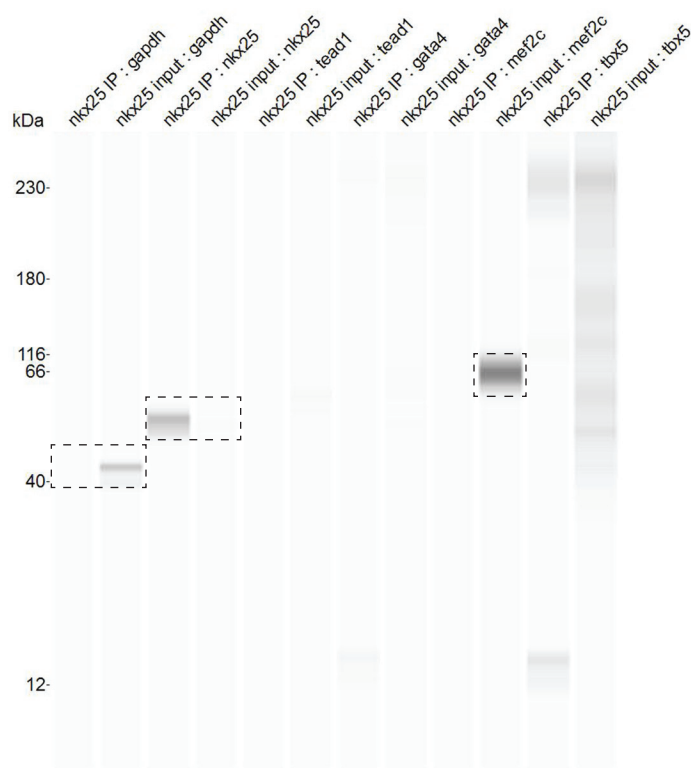

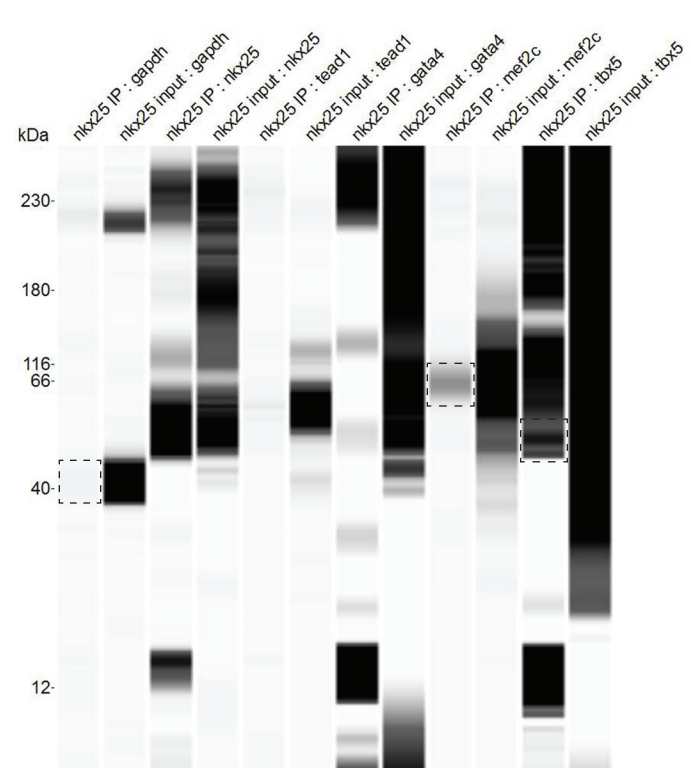

Fig. S9

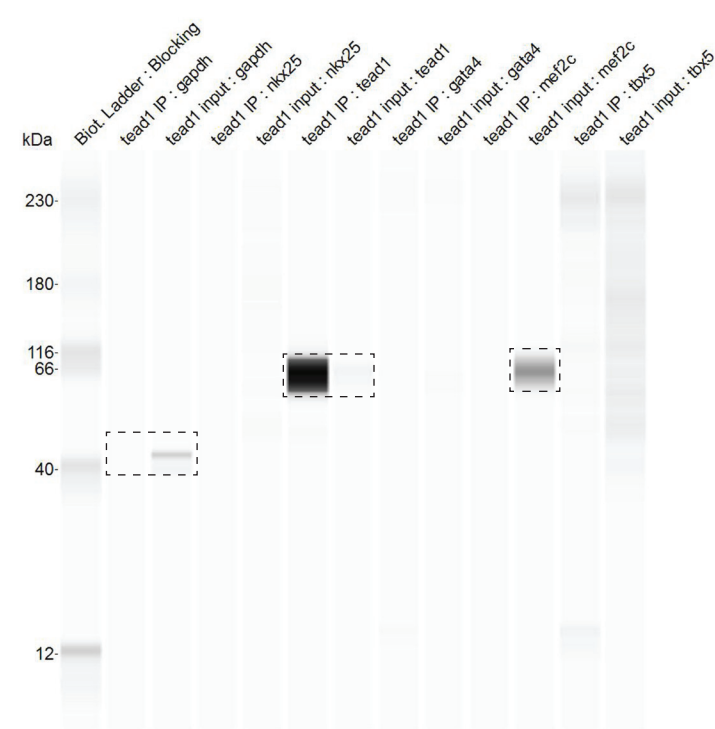

Fetal NKX2-5 Co-immunoprecipitation protein analysis (WES
Protein Simple - low exposure)

Fetal NKX2-5 Co-immunoprecipitation protein analysis (WES
Protein Simple - high exposure)

Fetal TEAD1 Co-immunoprecipitation protein analysis (WES
Protein Simple - low exposure)

Fetal TEAD1 Co-immunoprecipitation protein analysis (WES
Protein Simple - high exposure)
