

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Tumor Sample Characteristics

File Name: Supplementary Data 2

Description: Whole Exome Sequencing Summary

File Name: Supplementary Data 3

Description: Somatic Mutations

File Name: Supplementary Data 4

Description: Somatic Large Scale Copy Gains and Losses

File Name: Supplementary Data 5

Description: Exome-wide Allelic Imbalance Status and Enrichment Results

File Name: Supplementary Data 6

Description: Somatic Focal Amplifications and Deletions

File Name: Supplementary Data 7

Description: Significant Focal Copy Number Aberrations Identified By GISTIC

File Name: Supplementary Data 8

Description: Human Significantly Mutated Genes with Mutated Mouse Orthologs

File Name: Supplementary Data 9

Description: Pancreatic Cancer Core Pathways Altered by Mutation and Focal Copy Number Aberration in KPC and KPTC Mice

File Name: Supplementary Data 10

Description: Tumor Purity Estimated by Cre-Lox Sequence Analysis

File Name: Supplementary Data 11

Description: Somatic Mutation Cancer Cell Prevalence across Tumor Regions
