

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Clinical characteristics of patients analyzed

File Name: Supplementary Data 2

Description: Serial timepoints analyzed

File Name: Supplementary Data 3

Description: Genes analyzed

File Name: Supplementary Data 4

Description: Summary of genomic analyses of plasma samples

File Name: Supplementary Data 5

Description: Summary of genomic analyses of white blood cell samples

File Name: Supplementary Data 6

Description: Sequence alterations detected in cfDNA

File Name: Supplementary Data 7

Description: Sequence alterations detected in WBCs

File Name: Supplementary Data 8

Description: WBC sequence alterations identified in cfDNA

File Name: Supplementary Data 9

Description: Sequence alterations detected in ctDNA

File Name: Supplementary Data 10

Description: Functional prediction analyses of WBC alterations
