

Description of Additional Supplementary Files

:

File name: Supplementary Data 1

Description: TIPs presence/absence across 602 tomato accessions

File name: Supplementary Data 2

Description: Potato leaf morphology

File name: Supplementary Data 3

Description: Determinate or indeterminate growth morphology

File name: Supplementary Data 4

Description: Simple or compound inflorescence morphology

File name: Supplementary Data 5

Description: Dwarf/normal plant architecture

File name: Supplementary Data 6

Description: Harvest time

File name: Supplementary Data 7

Description: Elongated fruit shape

File name: Supplementary Data 8

Description: Oblate fruit shape

File name: Supplementary Data 9

Description: Plum/pear/periform fruit shape

File name: Supplementary Data 10

Description: Ribbed fruit shape

File name: Supplementary Data 11

Description: Round fruit shape

File name: Supplementary Data 12

Description: Mature fruit weight

File name: Supplementary Data 13

Description: Acidic fruit taste

File name: Supplementary Data 14

Description: Fruity fruit taste

File name: Supplementary Data 15

Description: Sweet fruit taste

File name: Supplementary Data 16

Description: Tart fruit taste

File name: Supplementary Data 17
Description: Well-balanced fruit taste
