

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Detailed findings of individual-country-level fit: all coefficients of the polynomial regression and the response surface analysis

File Name: Supplementary Data 2

Description: Detailed findings of individual-region-level fit: all coefficients of the polynomial regression and the response surface analysis

File Name: Supplementary Data 3

Description: Detailed findings of individual-country-level fit: all coefficients of the polynomial regression and the response surface analysis (controlled for age and gender)

File Name: Supplementary Data 4

Description: Detailed findings of individual-region-level fit: all coefficients of the polynomial regression and the response surface analysis (controlled for age and gender)

File Name: Supplementary Data 5

Description: Multi-level polynomial regressions with controlling for HDI⁴

File Name: Supplementary Data 6

Description: Multi-level polynomial regressions controlling for individual-level age, gender, education level, income, country-level age and the Human Developmental Index"
