

Full unedited blots

A. Full unedited blots for Figure 1b, anti-Fam3D (mouse FAM3D)

B. Full unedited blots for Figure 1b, anti-GAPDH

C. Full unedited blots for Figure 1e, anti-Fam3D (left) and anti-GAPDH (right)

D. Full unedited blots for Supplementary Figure 1a

E. Full unedited blots for Supplementary Figure 1e

Anti-human FAM3D (left) and marker (right)

Anti-GAPDH (left) and marker (right)

F. Full unedited blots for Supplementary Figure 9b, anti-human FAM3D in supernatant

G. Full unedited blots for Supplementary Figure 9b, anti-human FAM3D in cell lysate

H. Full unedited blot for Supplementary Figure 9b, anti-GAPDH

I. Full unedited blots for Supplementary Figure 9c, anti-human FAM3D in infected mouse tissues

J. Full unedited blots for Supplementary Figure 9c, anti- β -actin
