

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Results of the quantitative mass spectrometry of the GFP samples compared to the control NT samples. The raw proteomics data are available on ProteomeXchange at PXD021515

File Name: Supplementary Data 2

Description: Results of the quantitative mass spectrometry of the CD63-eGFP samples compared to the CD9-eGFP samples. The raw proteomics data are available on ProteomeXchange at PXD021515.
