

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Sheet A: Individual ROH

This table lists the individual ROH results and relevant meta data for all individuals analyzed in this study (including age, longitude, latitude, region assignment, original study and subsistence strategy assignment). Each row is one individual.

Sheet B: Primary References

Full list of references and DOIs to the 103 primary publications of ancient DNA data screened for ROH.

Sheet C: Figure Data

A table linking each Figure, Table, Supp. Figure and Supp. Table to the necessary data, and code to generate this data.

Sheet D: Region Definitions

A table listing the geographic corner points (in decimal latitude and longitude) of the regions shown in Fig. 1.
