

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: *C. albicans* essentiality predictions.

File Name: Supplementary Data 2

Description: Essentiality verdicts.

File Name: Supplementary Data 3

Description: GO Term Analysis.

File Name: Supplementary Data 4

Description: Fungal-specific essential genes.

File Name: Supplementary Data 5

Description: Putative cellular targets of pharmacologically active compounds.

File Name: Supplementary Data 6

Description: Mass spectrometry analysis; Krp1 interactome.

File Name: Supplementary Data 7

Description: Primers used in this study.
