

Description of Additional Supplementary Files

File Name: Supplementary Data 1-5

Description: This folder contains the following 5 data sets:

Supplementary Data 1. All called CUT&RUN (GLI3, HDAC1/2) and CUT&Tag peaks (H3K4me1, H3K27me3).

Supplementary Data 2. All differential ChIP-seq analyses with called peaks (H3K27ac, H3K4me2).

Supplementary Data 3. Differential RNA-seq analyses- WT vs *Gli3*^{-/-}; E9.25 vs. E10.5 Anterior limb buds.

Supplementary Data 4. Putative HH target genes and chromatin marks enriched at gene promoters.

Supplementary Data 5. Differential ATAC-seq time course analyses.
