

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: Proteins enriched from co-immunoprecipitation of GRAMD1C-EGFP were compared against proteins enriched from co-immunoprecipitation of EGFP-tag alone. The log fold change (LogFC), P-values and protein IDs of the significant proteins are described. The data have been deposited in the PRIDE database under accession code PXD033125 [<https://www.ebi.ac.uk/pride/archive/projects/PXD033125>].

File name: Supplementary Data 2

Description: Proteins enriched from co-immunoprecipitation of GRAMD1C(Δ GRAM)-EGFP were compared against proteins enriched from co-immunoprecipitation of EGFP-tag alone. The log fold change (LogFC), P-values and protein IDs of the significant proteins are described. The data have been deposited in the PRIDE database under accession code PXD027502 [<https://www.ebi.ac.uk/pride/archive/projects/PXD027502>].
