

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Sex differences of UVB-induced skin carcinogenesis in mice

File Name: Supplementary Data 2

Description: TRP53 mutations in UVB-induced skin carcinogenesis of mice

File Name: Supplementary Data 3

Description: TCGA differential gene expression analysis of high and low TINCR expressing cases

File Name: Supplementary Data 4

Description: GSEA pathways upregulated in HNSCC patients with high TINCR expression

File Name: Supplementary Data 5

Description: GSEA pathways upregulated in HNSCC patients with low TINCR expression

File Name: Supplementary Data 6

Description: DALI server TINCR structural homologs (PDB all)

File Name: Supplementary Data 7

Description: Crystallographic data collection and refinement statistics

File Name: Supplementary Data 8

Description: TINCR expression in head and neck squamous cell carcinomas

File Name: Supplementary Data 9

Description: TINCR expression in cutaneous squamous cell carcinoma and other skin cancers

File Name: Supplementary Data 10

Description: Association of TINCR protein expression with other proteins by immunohistochemistry and clinical parameters in HUCA cutaneous SCC cohort

File Name: Supplementary Data 11

Description: Association of TINCR protein expression with clinicopathological findings, relapse and disease outcome
