

Description of Additional Supplementary Files

File Name: Supplementary Movie 1

Description: Lateral flow assay applying an 80 μ L droplet blood without calprotectin (negative control).

File Name: Supplementary Movie 2

Description: Lateral flow assay applying an 80 μ L droplet blood containing calprotectin (950 ng/mL).

File Name: Supplementary Movie 3

Description: Lateral flow assay applying an 80 μ L droplet serum without calprotectin (negative control).

File Name: Supplementary Movie 4

Description: Lateral flow assay applying an 80 μ L droplet serum containing calprotectin (950 ng/mL).
