

File name: Supplementary Movie 1

Description: TAG transfer between MHAS2168 and LprG. The movie shows coarse-grained MD simulation of TAG transfer between MHAS2168 and LprG depicted on Figure 6a, replicate 1. MHAS2168 N-domain, light gray; MHAS2168 C-domain, dark gray; LprG, pale lilac. For clarity, the three TAG acyl tails have been colored differently (yellow, green, and purple).
