

Description of Additional Supplementary Files

File name: Supplementary Movie 1

Description: 3D variability analysis of full-length ERGIC-53 in complex with MCFD2 reveals the two different conformational motions of the stalk region.

File name: Supplementary Movie 2

Description: 3D variability analysis of the head region of full-length ERGIC-53 reveals the two different conformational motions of the CRDs.

File name: Supplementary Movie 3

Description: 3D variability analysis of ERGIC-53 Δ H34 in complex with MCFD2 reveals the three different conformational motions of this mutant.
