

Description of Additional Supplementary Files:

Supplementary Data 1: m⁶A-modified sites detected by TandemMod in rice control sample.

Supplementary Data 2: m⁵C-modified sites detected by TandemMod in rice control sample.

Supplementary Data 3: Genes with differential m⁶A-modified rates detected by TandemMod in rice sample with NaCl treatment as compared to control. Two-sided Fisher's exact test was used without adjusting for multiple comparisons.

Supplementary Data 4: Genes with differential m⁵C-modified rates detected by TandemMod in rice sample with NaCl treatment as compared to control. Two-sided Fisher's exact test was used without adjusting for multiple comparisons.
