

HIV-1 envelope trimer vaccine induces sex-associated differences in antibody responses: a phase 1 clinical trial

Corresponding Author: Ms Emma Reiss

This manuscript has been previously reviewed at another journal. This document only contains information relating to versions considered at Nature Communications.

This file contains all reviewer reports in order by version, followed by all author rebuttals in order by version.

Version 0:

Reviewer comments:

Reviewer #1

(Remarks to the Author)

The authors have addressed all my comments. however, I still think the title of the paper seems too bold and conclusive, where the evidence doesn't really support so. will suggest tuning it down.

Reviewer #3

(Remarks to the Author)

made.
