

Multimomics characterization of acute child illness and mortality in Africa and South Asia

Corresponding Author: Professor Nima Aghaeepour

This manuscript has been previously reviewed at another journal. This document only contains information relating to versions considered at Nature Communications.

This file contains all reviewer reports in order by version, followed by all author rebuttals in order by version.

Version 0:

Reviewer comments:

Reviewer #1

(Remarks to the Author)

The authors have addressed all the main comments and their revisions have improved the manuscript.

(Remarks on code availability)

The authors provide comprehensive and well-documented R code for their manuscript.

Reviewer #2

(Remarks to the Author)

The authors have addressed my comments

(Remarks on code availability)

The authors have mentioned they have uploaded the code, however it's still not available to me. Please check the accuracy of the link:<http://datadryad.org/stash/share/P1NC9xYPTGWIwf4dpvG76OUwv2pVJkHyZFleDeUfqKc>
