

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Full list of maximum reported lifespan records for all butterflies (including many non-Heliconiini species) in Richard Kelson's long-running Butterfly Habitat census.

File Name: Supplementary Data 2

Description: Full list of all available maximum reported lifespan records for Heliconiini species.

File Name: Supplementary Data 3

Description: Survival data for the multi-species cognitive experiment cohort.

File Name: Supplementary Data 4

Description: Individual data for the semi-natural "mark-release-recapture" cohort.

File Name: Supplementary Data 5

Description: Sightings data for the semi-natural "mark-release-recapture" cohort.

File Name: Supplementary Data 6

Description: Survival data for the pollen-manipulation experiment cohort.

File Name: Supplementary Data 7

Description: Weight data for the pollen-manipulation experiment cohort.

File Name: Supplementary Data 8

Description: Grip strength data for the pollen-manipulation experiment cohort.

File Name: Supplementary Data 9

Description: Flight behaviour data for the pollen-manipulation experiment cohort.
