

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: rhAmpSeq panel information

File Name: Supplementary Data 2

Description: Normalized rhAmpSeq results - single-cell editing experiments

File Name: Supplementary Data 3

Description: PASTA translocation results

File Name: Supplementary Data 4

Description: WGS SV results

File Name: Supplementary Data 5

Description: scATAC-seq + scRNA-seq results

File Name: Supplementary Data 6

Description: WGBS DNA methylation results

File Name: Supplementary Data 7

Description: Normalized rhAmpSeq results cell types and tissues including statistics

File Name: Supplementary Data 8

Description: Bulk RNA-seq results tissues and mESCs
