

Extended Data Fig. 6f

G4L-PROTAC3 differential peaks

Extended Data Fig. 6e

- Step1: generate log2FC profile of FUS CnT between G4L-PROTAC and PDS control.
- Step2: extract G4 and non-G4 peaks for PROTAC and PDS control, respectively.
- Step3: visualize the log2FC profile around G4 and non-G4 peaks from PDS control.
- Step4: visualize the log2FC profile around G4 and non-G4 peaks from PROTAC.
