

SUPPLEMENTARY INFORMATION

**Fibroblast growth factor 12 is expressed in spiral and vestibular ganglia
and necessary for auditory and equilibrium function**

**Yukiko Hanada, Yukiko Nakamura, Yoshiyuki Ozono, Yusuke Ishida,
Yasumitsu Takimoto, Manabu Taniguchi, Kazuya Oahata,
Yoshihisa Koyama, Takao Imai, Tetsuo Morihana, Takashi Sato,
Hidenori Inohara, Shoichi Shimada**

Supplementary Information 1.

Full-length gel cropped for representative figure.

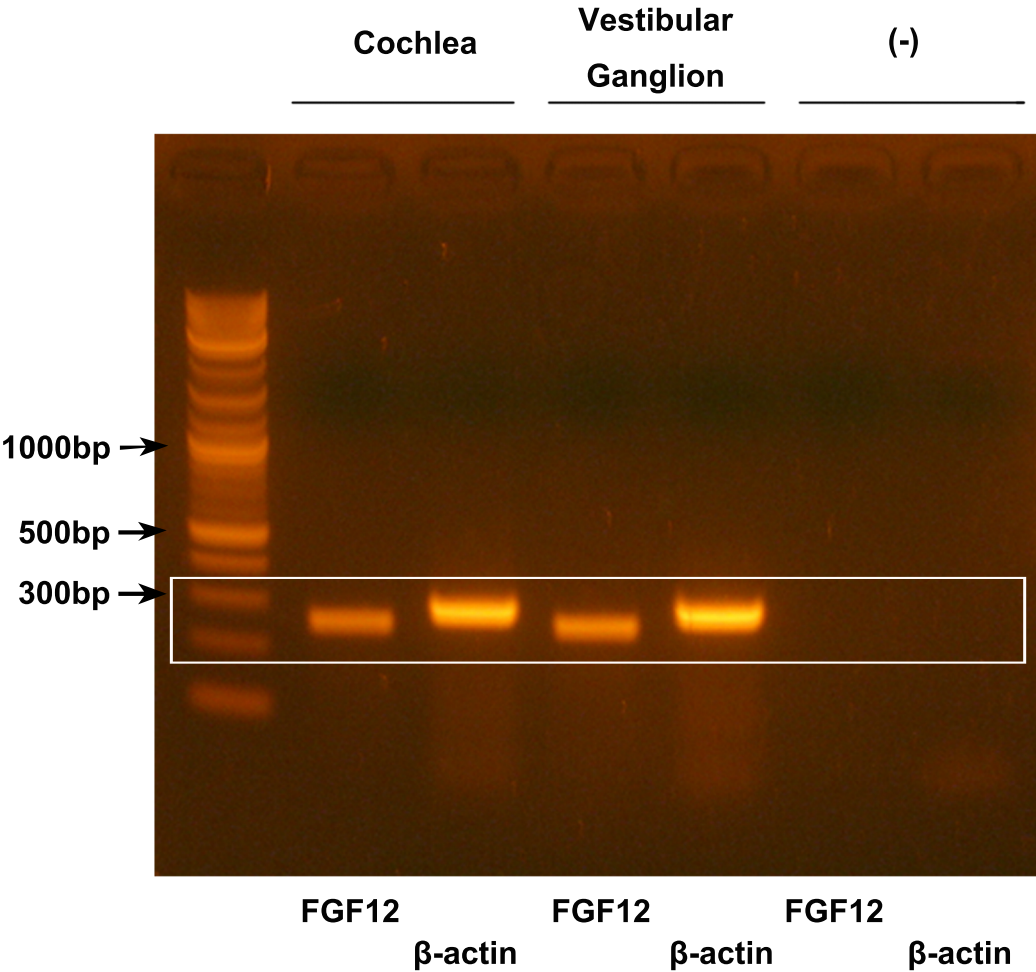

Figure. S-1.

Full-length gel for electrophoresis shown in Figure 1a.

Boxes indicate lanes that were used in Figure 1a.

Supplementary Information 2.

Full-length blots cropped for representative figures.

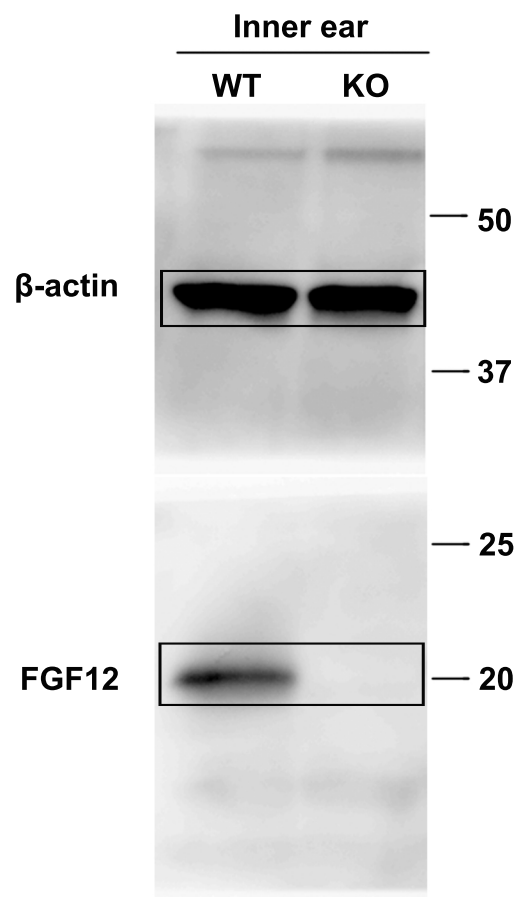

Figure S-2.

Full-length of immunoblots shown in Figure 3c.

Boxes indicate lanes that were used in Figure 3c.

The membrane is cut into two parts for each antibody.

Supplementary Information 3.

Full-length gels cropped for representative figures.

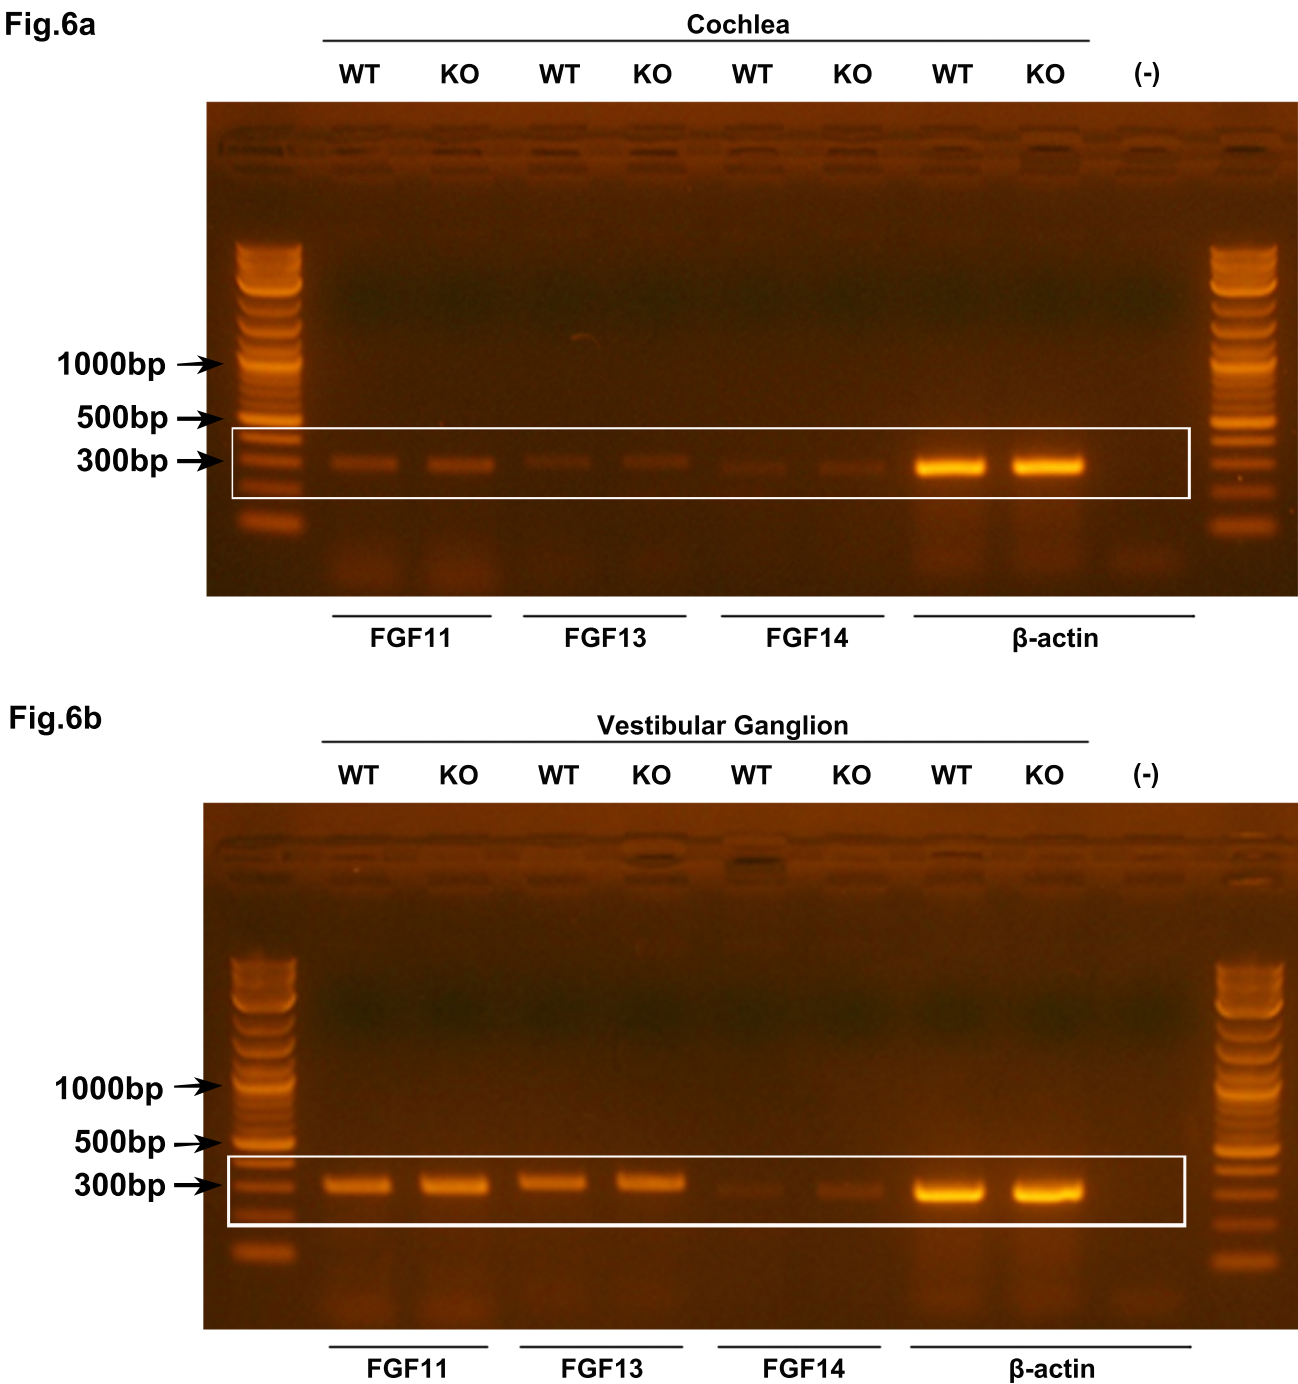

Figure. S-3.

Full-length gel for electrophoresis shown in Figure 6a and 6b.

Boxes indicate lanes that were used in each figure.
