Table S1: Genebank accessions numbers of previously published sequences and own generated sequences used in this study.

Scientific Name	Genebank Accession Number
<i>Rafflesia keithii</i>	AY739084
<i>Rafflesia pricei</i>	AY739083
<i>Rhizanthus infanticida</i>	L24048
<i>Rhizanthus lowii</i>	FJ669712
<i>Sapria himalayana</i>	MG969941*
<i>Sapria himalayana</i>	MG969942*
<i>Sapria himalayana</i>	AY739086
<i>Sapria poilanei</i>	AY739087
<i>Sapria ram</i>	AY739088
