CON-QUEST (COroNavirus QUESTionnaire): Contact questionnaire on patterns and behaviour in University of Bristol staff and students during the COVID-19 pandemic

Help control COVID-19 Thank you for taking this survey. In doing so, you will be contributing to research into how COVID-19 spreads. Social contact patterns are important for understanding the spread of COVID-19. We are conducting this survey at the University of Bristol to measure social contact patterns in a university setting, as well as other factors important in the transmission of COVID-19. Instructions You must be over 18 years of age to complete this survey and a member of staff or a student at the University of Bristol. The survey is anonymous, and you can opt out at any time by closing the survey. We are unable to remove submitted answers due to the anonymous nature of the survey. Therefore, submission of pages within the survey will be taken as consent that you are happy for the data you have provided to be used for research purposes. Your anonymised data from this questionnaire will be made available publicly through a data repository and through publications to aid with the COVID-19 public health response. As lockdown eases, we will capture how contact patterns and behaviour change over time. If you are happy to be contacted again, you will be able to provide an email address at the end of the survey. Your email address will only be stored for the sole purpose of contacting you about completing this survey in the future. Your email address will not be linked to the information you submit in the questionnaire - your data will remain anonymous. Your information will be kept in accordance with the Data Protection Act. Thank you for completing CON-QUEST! If you have any questions about the survey, then please contact us on: uob-conquest-project@bristol.ac.uk

You can read about the survey and find latest results on the CONQUEST website: bris.ac.uk/conquest This survey is funded by the Elizabeth Blackwell Institute for Health Research at the University of Bristol.

Section 6 - Your contacts yesterday

This section is asking about the contacts that you had with other people yesterday including those that you live with. There are three parts to this section of the survey about three different types of contacts you might have had. Read the following instructions carefully so that you know where to enter each contact.

- (1) Individual contacts- those who you spoke in person to one-on-one, including those in your household and support bubble.
- (2) If you spoke in person to many people one-on-one in the same setting (but they did not have the opportunity to speak to each other), for example, as part of working in a customer service role in a shop.
- (3) Large groups of individuals in the same setting (e.g. sports teams, tutorials, lectures, religious services, large gatherings with friends and family).

PLEASE RECORD EACH PERSON ONLY ONCE, on a single row, or as a member of just one group, even if you meet the same person several times during the day and/or as part of a group. If you spoke to an individual in multiple locations, choose the location where you spent the most time with that person.

This survey is anonymous - it is important for you to record all of your contacts and how they happened, whether they fit with the current social/physical distancing advice or not.

Individual contacts yesterday Thinking about yesterday, who did you speak to (in person) yesterday? It can help to think about your day from when you got up, at breakfast, in the morning, at lunch, in the afternoon, at teatime, and in the evening.

Please include everyone you have been close to. This includes:

People you had a face to face conversation without a complete barrier between you. Please include people you were within 3 meters (10 feet) of and spoke to. Do not include people you talked to through a solid barrier, for example, a closed window. People you had physical contact with for example, handshake, hug, kiss. Examples of these contacts could be your partner, a parcel delivery person, a friend or a shop worker. - Only include individuals you spoke to one-on-one as you will be able to enter those you met in a group in a later section.

- Do include those that are a part of your household.

- If you spoke to many people one-on-one in the same setting (but they did not have an opportunity to speak to each other), for example, as part of a customer service role, you are not required to enter these particular contacts separately but will be prompted to include these in a later question.

- If you spoke to an individual in multiple locations, choose the location where you spent the most time with that person.
