Supplementary Table 1. Questionnaire for evaluating practitioner's self-confidence.

Please rate your performance on the procedure you just performed:

1. How confident were you during the procedure? Total Score: /30

1	2	3	4	5
Not at all		Confident		Very confident, level of attending surgeon

2. What was your surgical skill level during the procedure?

1	2	3	4	5
I felt I had none whatsoever		Average, as required of a resident my level		Well above average and only rarely encountered in a resident of my level

3. Were you worried during the procedure?

1	2	3	4	5
Constantly worried something was going to go wrong (life		Occasionally worried		I felt completely

threatening complication) or I was not operating at the required level				calm, not worried at all
--	--	--	--	-----------------------------

4. Were you anxious during the procedure?

1	2	3	4	5
Constantly anxious, I had “flutters in my stomach” during the whole procedure		Occasionally anxious		Not anxious at all

5. Based on your performance today, would you have liked to have avoided this procedure altogether?

1	2	3	4	5
Indeed		Only occasionally during the procedure		On the contrary, I would do it again anytime

6. How comfortable were you with the independent planning and performing of the procedure?

1	2	3	4	5
Very uncomfortable		Average		Very comfortable (level of attending surgeon)
