

Supplementary Figure 1

Supplementary Figure 1: (a) Normal tissue expression of ESS2 in humans. **(b)** ESS2 expression levels in prostate cancer cells. ESS2 was expressed in all prostate cancer cell lines. **(c)** ESS2 expression levels in cancer tissues, as detected using anti-ESS2 antibodies (HPA001221 or HPA001222). These data were obtained from human protein atlas (<https://www.proteinatlas.org/ENSG00000100056-ESS2/pathology/prostate+cancer#Quantity>).
