

RE: Acknowledgements of authorship changes

Please find a complied document of emails from the authors acknowledging authorship changes after they reviewed the Authorship form. The added authors, Alejandra McCord and Yanhong Wang, signed the pdf. All others agreed to the changes by email.

I, Jennifer Erwin, also acknowledge and agree to all authorship changes.

Sincerely,
Jennifer Erwin

Hi Jenny,

I agree with the proposed changes in authorship.

Best regards,
Alan.

Subject: Action Required: Acknowledgement of Authorship changes for Scientific Reports Manuscript

Dear co-authors,

The trophoblast stem cell manuscript is nearing publication, and Scientific Reports requires an email acknowledgement of all authors agreeing to the final authorship. In the final revision, additional data and work was performed. To reflect these changes, Alejandra and Yanhong were added as authors and the authorship order changed slightly. Please see the attached document explaining the changes from the April submission.

Please respond to me by email acknowledging you agreement to the changes. Thank you for your contributions to this work.

“This form should be used by authors to request any change in authorship (adding/deleting authors) including changes in corresponding authors. This form should not be used for name changes. Please fully complete all sections. Use black ink and block capitals and provide each author’s full name with the given name first followed by the family name.

By signing this declaration, all authors guarantee that the order of the authors are in accordance with their scientific contribution, if applicable as different conventions apply per discipline, and that only authors have been added who

made a meaningful contribution to the work.

- Please note, in author collaborations where there is formal agreement for representing the collaboration, it is sufficient for the representative or legal guarantor (usually the corresponding author) to complete and sign the Authorship Change Form on behalf of all authors, **next to the added/removed author(s). (Complete Section 3, followed by Section 6.)**
In author collaborations where there is no formal agreement for representing the collaboration and **there are more than 10 authors**, one may sign for all, provided the signer appends correspondence that attests that each of the authors have agreed to the change **and the added/removed authors sign the form. (Complete Section 3, followed by Section 6.)"**

Hi Jennifer,
I approve the changes.
Can you make sure my name is spelled correctly on the manuscript? Only the L should be capitalized in my last name.

Thanks.
Joyce
