

Supplementary Figure S1. Box plots of the Alu methylation levels, expression, and relative copy number in the cerebellum of ASD and unaffected individuals. (A) Box plot of Alu methylation levels, expression, relative copy number in the ASD, and unaffected CTRL. (B) Box plot of Alu methylation levels, expression, and relative copy number in the nonverbal ASD (NV-ASD) and matched unaffected CTRL. (C) Box plot of Alu methylation levels, expression, and relative copy number in the verbal ASD (V-ASD) and matched unaffected CTRL. (NS= not significant, * = significant at the 0.05 level)
