

Allosaurus

Nothronychus

Supplementary Figure S7. *Allosaurus* (A) and *Nothronychus* (B-C) Mass flexion/extension plots. Muscles: EDB, extensor digitorum brevis; EDL, extensor digitorum longus; FDB, flexor digitorum brevis; FDL, flexor digitorum longus. Positive moment arms represent extension, while negative moment arms represent flexion. Crossing 0 reflects a change in function (Hutchinson et al., 2005).
