

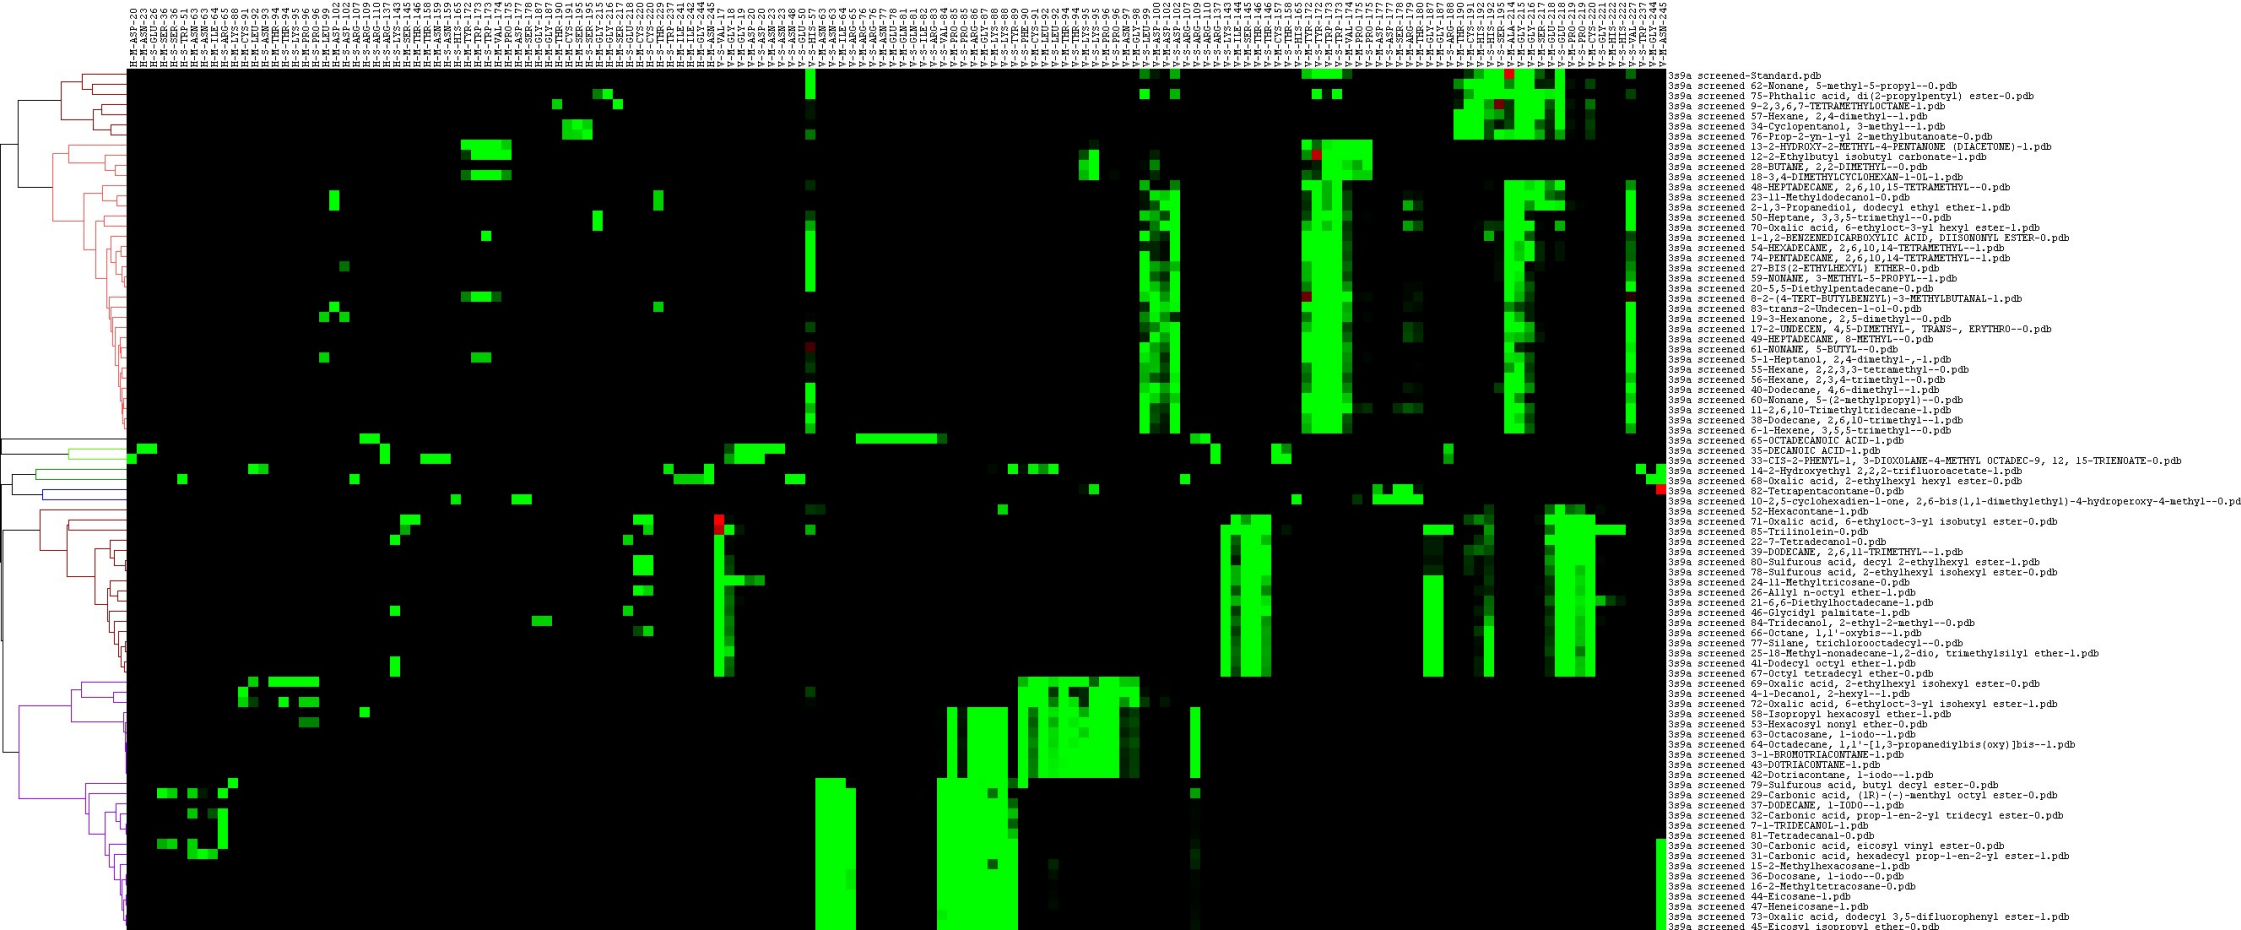

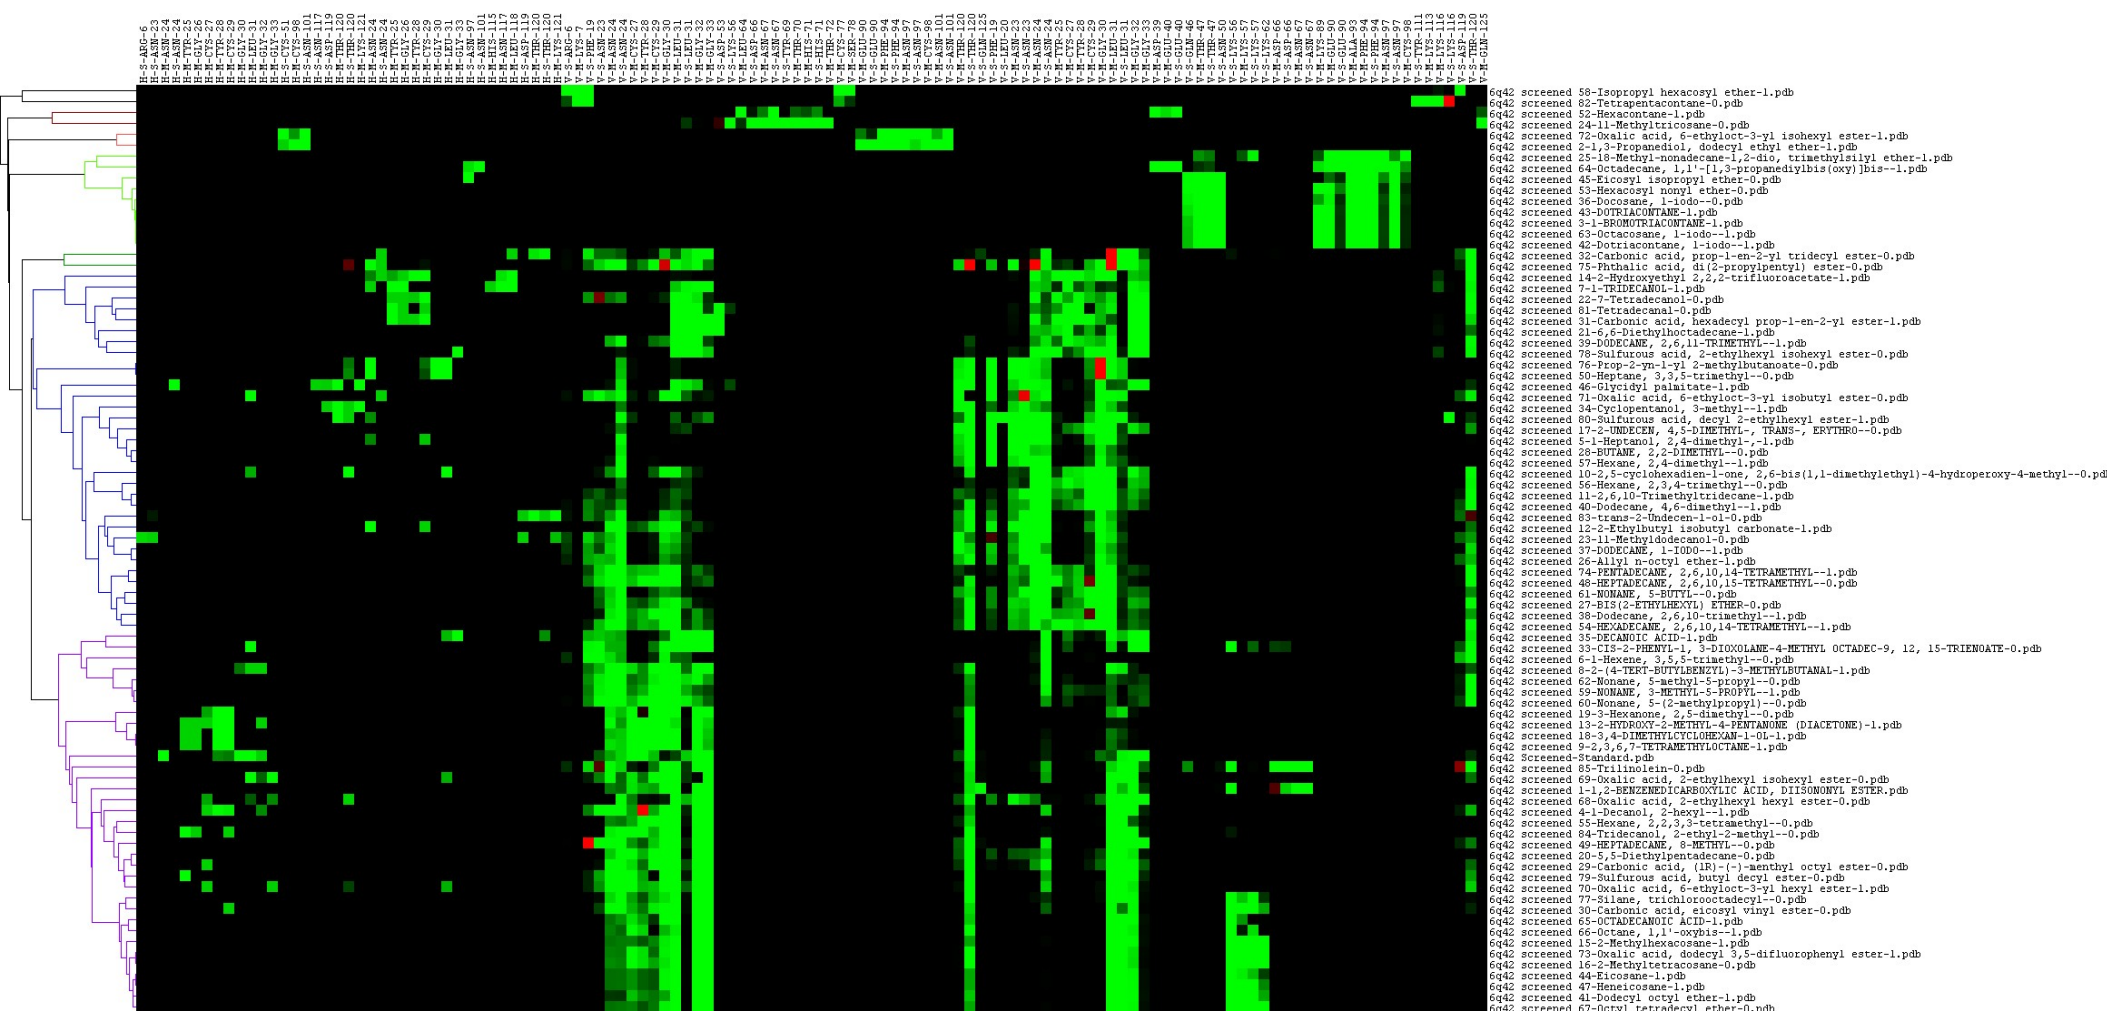

Fig. S2. Hierarchical clustering view of Russell's viper venom serine (3S9A) inhibition by the phytoconstituents from leaf extract of *A. echinoides*.

X axis: Compounds from the leaf extract of *A. echinoides*.

Y axis: Amino acid residues Information from the 3S9A target.

Fig. S3. Hierarchical clustering view of Human Pancreatic Phospholipase A2 (6Q42) inhibition by the phytoconstituents from leaf extract of *A. echinoides*.

X axis: Compounds from the leaf extract of *A. echinoides*.

Y axis: Amino acid residues Information from the 6Q42 target.
