

Supplemental Figure 1

Supplemental Figure 1

The expression of Ddah2 in ins1e with negative control (N.C.) or Ddah2 KD siRNA were examined (A) by qPCR, (B) by western blotting. The blotting image was cropped. *** $p < 0.001$, vs. N.C. siRNA, Student's *t*-test.

Supplemental Figure 2

Supplemental Figure 2

(A) GLUT4 translocation, (B) Akt phosphorylation, and (C) sortilin expression, were examined in 3T3-L1 cells. and band intensity was measured. The blotting image was cropped.
