

Original data for figure 1C, bottom panel

The rectangle marks the cropped area displayed in figure 1C

Original data for figure 1C, top panel

The rectangle marks the cropped area displayed in figure 1C

Original data for figure 1d, opsin

The rectangle marks the analyzed data represented by the data point in figure 1d

Original data for figure 1d, PRPF6

The rectangle marks the analyzed data represented by the data point in figure 1d

Original data for figure 1d, PRPF8

The rectangle marks the analyzed data represented by the data point in figure 1d

Original data for figure 1d, recoverin

The rectangle marks the analyzed data represented by the data point in figure 1d

Original data for figure 1d, rhodopsin_batch2

The rectangle marks the analyzed data represented by the data point in figure 1d

Original data for Figure 1d, rhodopsin_batch3

The rectangle marks the analyzed data represented by the data point in Figure 1d

Original data for figure 1d, ROM1

The rectangle marks the analyzed data represented by the data point in figure 1d

Original data for figure 1d, visual arrestin

The rectangle marks the analyzed data represented by the data point in figure 1d

Original data for figure S1b

The rectangle marks the cropped area displayed in figure S1b

Original data for figure S1d

The rectangle marks the cropped area displayed in figure S1d

Original data for figure 1e, panel_1 (top)

The rectangle marks the cropped area displayed in figure S1e

Original data for Figure 1e, panel_2 (middle)

The rectangle marks the cropped area displayed in Figure S1e

Original data for Figure 1e, panel_3 (middle)

The rectangle marks the cropped area displayed in Figure S1e

Original data for Figure 1e, panel_4 (bottom)

The rectangle marks the cropped area displayed in Figure S1e
