

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Clinico-pathological and molecular characteristics of PanNET cohort 1

File Name: Supplementary Data 2

Description: Differentially methylated CpG sites identified comparing normal α -to normal β -cells

File Name: Supplementary Data 3

Description: Alpha specific TF checkpoint CpG sites located at normal islet regulatory regions

File Name: Supplementary Data 4

Description: Beta specific TF checkpoint CpG sites located at normal islet regulatory regions

File Name: Supplementary Data 5

Description: Clinico-pathological and molecular characteristic of cohort 2

File Name: Supplementary Data 6

Description: Differentially methylated CpG sites identified comparing α -like to β -like PanNETs

File Name: Supplementary Data 7

Description: Differentially methylated CpG sites identified comparing α -like to intermediate PanNETs

File Name: Supplementary Data 8

Description: Differentially methylated CpG sites identified comparing intermediate to β -like PanNETs

File Name: Supplementary Data 9

Description: Clinico-pathological and molecular characteristics of Chan et al. cohort
