

Description of Additional Supplementary Files

File name: Supplemental Data 1

Description: Mapping rates of RNA-sequencing samples

File name: Supplemental Data 2

Description: Significant gene expression changes for myoblasts in excel format

File name: Supplemental Data 3

Description: Significant gene expression changes for differentiated cells in excel format

File name: Supplemental Data 4

Description: Significant alternative splicing changes for myoblasts in excel format

File name: Supplemental Data 5

Description: Significant alternative splicing changes for differentiated cells in excel format

File name: Supplemental Data 6

Description: PCR Primers for alternative splicing analysis
