

Description of Additional Supplementary Files

File name: Supplementary Movie 1

Description: Migration of MDA-231 cells transfected with siRNA for B56g. MDA-MB-231 cells cotransfected with siRNA for B56g and GFP were replated on wells coated 2.5 mg/ml fibronectin and recorded for 5 h.

File name: Supplementary Movie 2

Description: Migration of MDA-231 cells transfected with siRNA for Liprina1. MDA-MB-231 cells cotransfected with siRNA for Liprin-a1 and GFP were replated on wells coated 2.5 mg/ml fibronectin and recorded for 5 h.

File name: Supplementary Movie 3

Description: Migration of MDA-231 cells transfected with control siRNA. MDA-MB-231 cells cotransfected with control siRNA and GFP were replated on wells coated 2.5 mg/ml fibronectin and recorded for 5 h.
