

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: All hit genes identified in bulk RNA-seq as well as gRNAs ordered to target genes with CRISPR.

File name: Supplementary Data 2

Description: All source data for plots.

File name: Supplementary Movie 1

Description: Source behind image clips in Figure 1a and quantification in 1e-g.

File name: Supplementary Movie 2

Description: Source behind image clips in Figure 1b and quantification in 1e-g.

File name: Supplementary Movie 3

Description: Source behind image clips in Figure 1c and quantification in 1e-g.

File name: Supplementary Movie 4

Description: Source behind image clips in Figure 1d and quantification in 1e-g.

File name: Supplementary Movie 5

Description: Source behind image clips and quantification in Supp figure 3.

File name: Supplementary Movie 6

Description: Source behind image clips and quantification in Figure 3 for Mtz ablation.
