

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Panel of healthy and dengue-infected plasma at the acute phase with the corresponding DENV, JEV, YFV, and ZIKV neutralization profiles.

File Name: Supplementary Data 2

Description: Oligonucleotide primers used for the generation of various in-house antibody expression vectors.

File Name: Supplementary Data 3

Description: Human monoclonal antibody isolation primers used in this study.

File Name: Supplementary Data 4

Description: Universal primers used for the amplification of human Ig gamma constant domains.

File Name: Supplementary Data 5

Description: Primers used for site-directed mutagenesis on ZIKV VLP.

File Name: Supplementary Data 6

Description: Source data underlying main figures.
