

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: Technical and Total % CV calculated for each analyte

File name: Supplementary Data 2

Description: %CV summary

File name: Supplementary Data 3

Description: Correlation Between Platforms

File name: Supplementary Data 4

Description: Panther class terms

File name: Supplementary Data 5

Description: Model summary

File name: Supplementary Data 6

Description: Model residual

File name: Supplementary Data 7

Description: Enriched pathways for Age

File name: Supplementary Data 8

Description: List of platforms representing each Uniprot ID

File name: Supplementary Data 9

Description: List of published literature for each identified age marker

File name: Supplementary Data 10

Description: Subject's age and sex
