

Description Of Additional Supplementary File

File name: Supplementary Movie 1.

Description: Monolayer colony surviving the encounter of a single phage Gray are healthy cells and red are phage-infected cells

File name: Supplementary Movie 2.

Description: Zoom over the Wedge region

File name: Supplementary Movie 3.

Description: Monolayer phage-plaque evolution

File name: Supplementary Movie 4.

Description: Pressure field evolution for monolayer phage-plaque

File name: Supplementary Movie 5.

Description: Isometric view of a 3D phage-plaque

File name: Supplementary Movie 6.

Description: 3D colony (no phage, height coloring)

File name: Supplementary Movie 7.

Description: Side view of a sliced 3D colony (no phage, height coloring)

File name: Supplementary Movie 8.

Description: Isometric view of a 3D phage-plaque (height coloring)

File name: Supplementary Movie 9.

Description: Top view of a 3D phage-plaque (height coloring)
