

Notes:

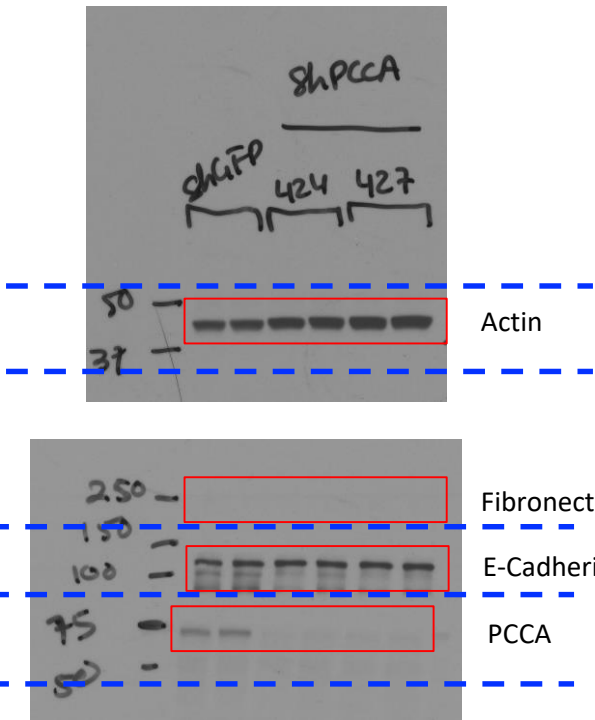

Blue dashed lines indicate how the membrane was cut

Red boxes indicate how the blot was cropped for the figures

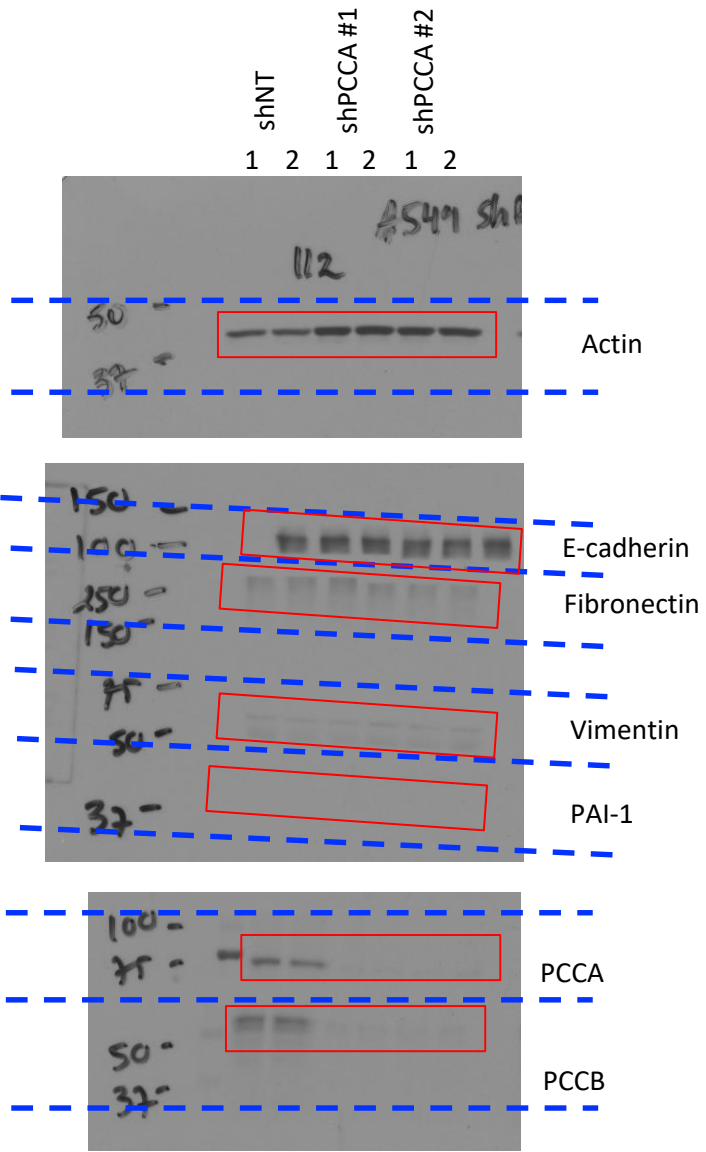

Black box around size markers indicates the section was copied from other parts of the film as size reference.

PAI1 is an alternative name for SERPINE1

MCF10A shPCCA

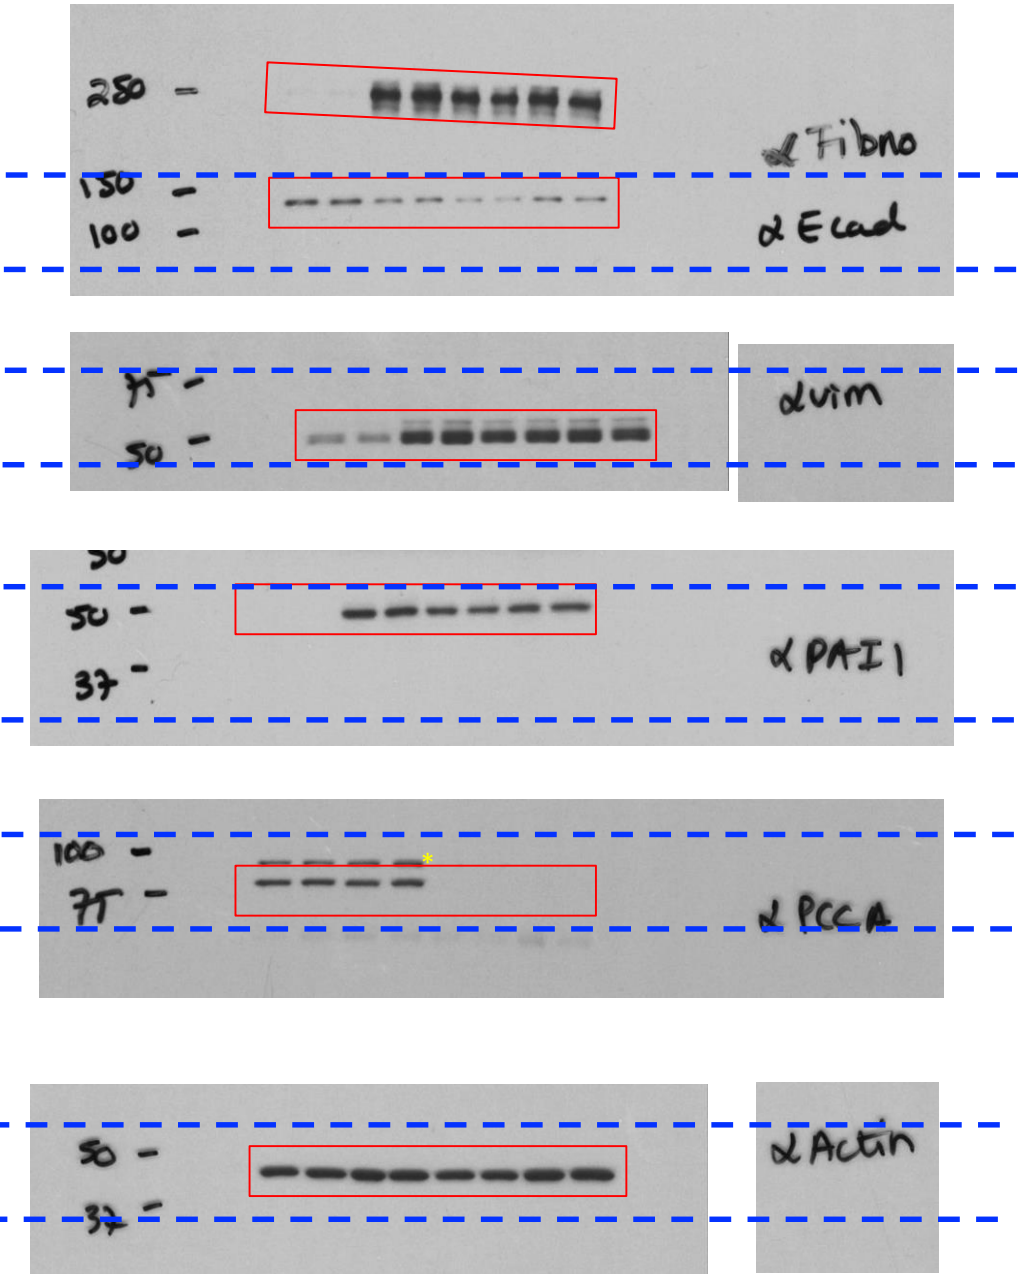

A549 shPCCA

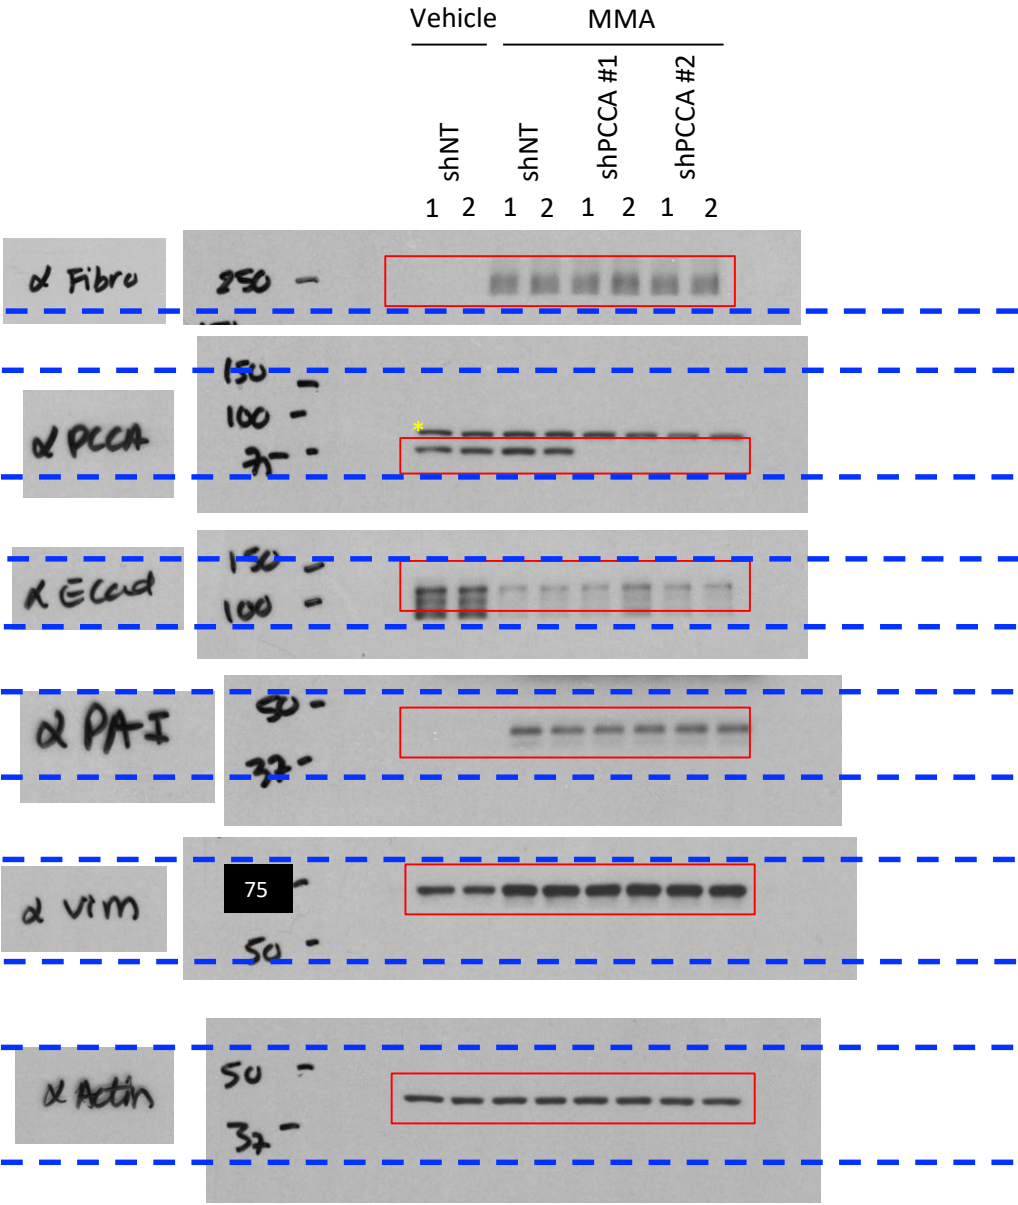

Extended Data Fig. 6c
MCF10A shPCCA + MMA

Vehicle				MMA			
shNT		shNT		shPCCA #1		shPCCA #2	
1	2	1	2	1	2	1	2

* Not clear what this band might be as in some cases it shows up, in some it doesn't and it doesn't always disappear with knockdown. For those reasons this band was not considered to be PCCA

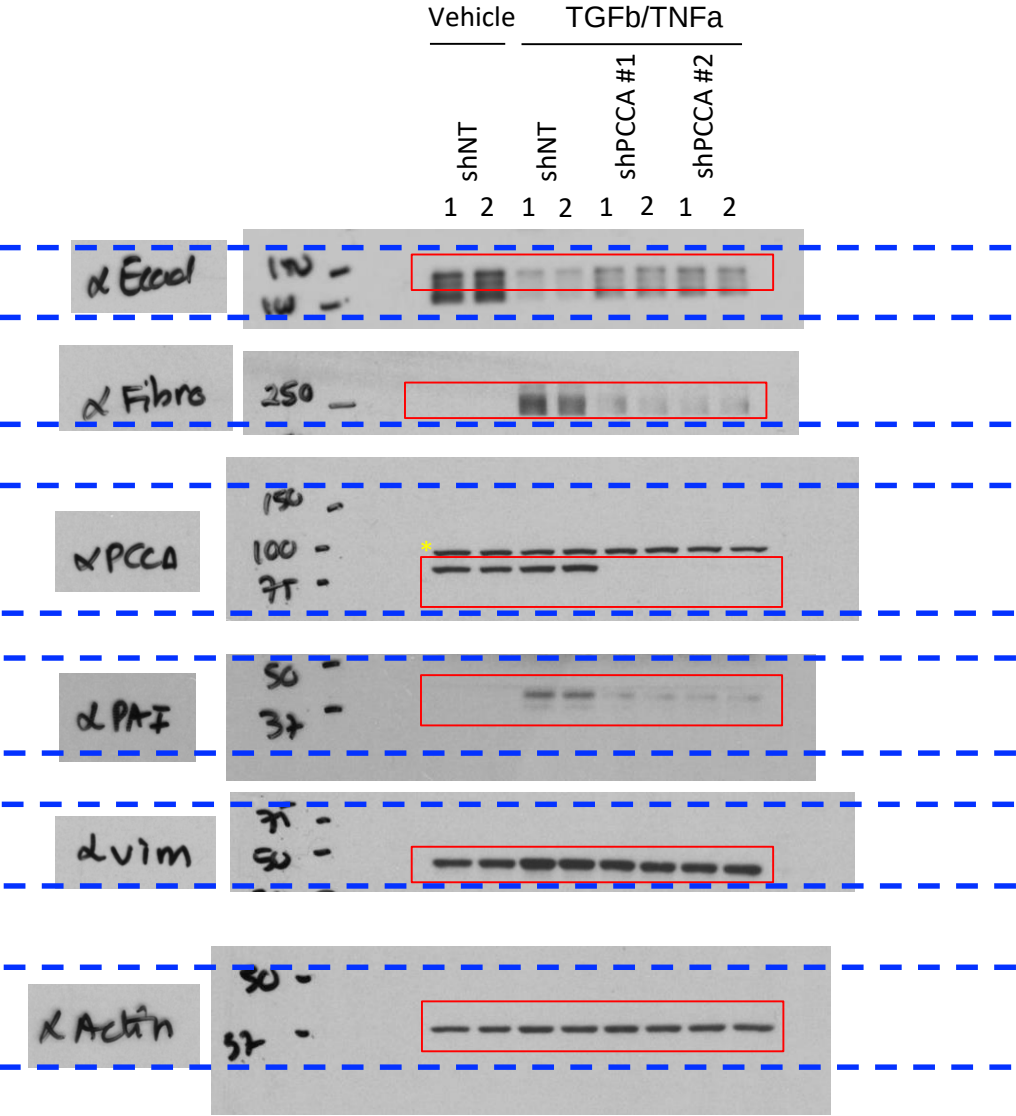

Extended Data Fig. 6c
A549 shPCCA + MMA

* Not clear what this band might be as in some cases it shows up, in some it doesn't and it doesn't always disappear with knockdown. For those reasons this band was not considered to be PCCA

Extended Data Fig. 6d

A549 shPCCA + TGFb/TNFa

* Not clear what this band might be as in some cases it shows up, in some it doesn't and it doesn't always disappear with knockdown. For those reasons this band was not considered to be PCCA
