

p44/42 MAPK

beta-actin

Source Data for Fig. 3d

Uncropped Western blots for p44/42 MAPK (Top) and beta-actin (Bottom) in *NRAS*^{WT} and *NRAS*^{Q61K} organoid lines cultured in WRNE medium or -WRNE medium + 10 μM Nutlin-3 and 1 μM Afatinib. *n* = 2 biologically independent experiments for one clonal organoid line (Left and Right). Red box highlights the images relevant to the corresponding figure.
