

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Academic and demographic information as a function of group (Inspiration n = 53, Inspiration & Inoculation n = 57, Inspiration, Inoculation, & Introduction n = 48).

File Name: Supplementary Data 2

Description: Role modeling, mentoring, scientific identity, coping skills, and persistence intentions at pretest and posttest as a function of group (Inspiration n = 53, Inspiration & Inoculation n = 57, Inspiration, Inoculation, & Introduction n = 48).

File Name: Supplementary Data 3

Description: Summary of robust bootstrapped path coefficients with bias-corrected confidence intervals for the model predicting mentoring, role modeling, motivational, coping skills, and persistence outcomes at posttest

File Name: Supplementary Data 4

Description: Bivariate correlations among all variables at pre- and post-test.
