

Description of Additional Supplementary Files

File name: Supplementary Data 1.

File Description: Radiocarbon dating of marine and terrestrial records from the Aegean region.

File name: Supplementary Data 2.

File Description: Chronologies of the pollen records from Lakes Belevi, Dojran, Kournas, and Voulkaria using the 'IntCal20' calibration curve.

File name: Supplementary Data 3.

File Description: Pb (normalized counts) and Pb/Zr content in marine and terrestrial cores from the Aegean region based on X-ray fluorescence (XRF) core scanning.

File name: Supplementary Data 4.

File Description: Pb and Zr concentrations based on inductively coupled mass spectrometry (ICP-MS) analysis, and related Pb lithogenic, Pb anthropogenic and Pb enrichment factors (EF) in the Tenaghi Philippon and M51/3 SL152 cores.

File name: Supplementary Data 5.

File Description: Pollen data for the Tenaghi Philippon, M51/3 SL152 and EF-AR2 cores.

File name: Supplementary Data 6.

File Description: Results of change point analyses applied to the XRF-based Pb/Zr ratios of marine and terrestrial records from the Aegean region.
