

Description of Additional Supplementary Files

File name: Supplementary Data 1

File description: Data underlying the viremia time course shown in Figure 1b.

File name: Supplementary Data 2

File description: Data underlying the peak serum neutralization data shown in Figure 1c.

File name: Supplementary Data 3

File description: Data underlying the immunogen binding profiles in Figure 1d.

File name: Supplementary Data 4

File description: Data underlying the monoreactive B cell binding profile shown in Figure 1e.

File name: Supplementary Data 5

File description: Data underlying the multireactive B cell binding profile shown in Figure 1f.

File name: Supplementary Data 6

File description: Data underlying week 75 binding profile shown in Figure 2b.

File name: Supplementary Data 7

File description: Data underlying week 117 binding profile shown in Figure 2c.

File name: Supplementary Data 8

File description: Data underlying somatic hypermutation data shown in Figure 3.
