

Appendix S.1. Search strings.

(Notes: This study first conducted a literature search using a combined string of “place attachment” and “urban green space”. Subsequently, the search strings were expanded to identify more studies potentially related to place attachment to urban green space).

Sequence of steps	Search strings
The initial search	“place attachment” AND “urban green spac*”
	“place identity” AND “urban green spac*”
	“place dependence” AND “urban green spac*”
The extensive search	“place attachment” AND “urban park”
	“place attachment” AND “public spac*”
	“place attachment” AND “landscape design”
	“place identity” AND “urban park”
	“place identity” AND “public spac*”
	“place identity” AND “landscape design”
	“place dependence” AND “urban park”
	“place dependence” AND “public spac*”
	“place dependence” AND “landscape design”
