
FIGURES

Type1, Type2, Type3 and Type4 referred to ENZ, nonENZ, HET and HOM respectively.

Fig. 1. ASA for *dom-face* area

Fig. 2. Hydrophobicity

Fig. 3. Amino Acid composition

Fig. 4. Distribution of size ratio

Fig. 5. Distribution of LCS

Fig. 6. Distribution of SSE contents

(A) Number of atoms

(B) Number of AA

(C) Number of SSE

Fig. 7. Distribution of nAtoms, nAAs, nSSEs

Fig. 8. Distribution of number of domains encoded in a rules

Fig. 9. Distribution of overlapping rules across interaction types
