

Percentage of each type of data missing in the 5 datasets

	Neighbors	DAmP-DAmP	Other
Chromosome	99.31	99.10	33.12
RNA	100	95.17	22.54
ESP	100	100	4.83
Signalling	99.79	100	11.12
Pombe	100	100	21.01

Note that the percentage of missing DAmP – DAmP pairs and chromosomal neighbors is near 100% in each dataset. It is unclear why a small percentage of values are present in the RNA, Chromosome & Signalling datasets
