

Shrinking nuc & bonds using
nucShrinkWithCircleNuc and pairBondScaleWithOneSeq
because circle_nuc or !=GR ... CLEAVAGE was used
Set these vars to 1 using SetDrawingParam
to disable. See note1 in manual.

Shrinking nucs & bonds used
nucShrinkWithCircleNuc and pairBondScaleWithOneSeq
because circle_nuc or !=GR ... CLEAVAGE was used
Set these vars to 1 using SetDrawingParam
to disable. See note1 in manual.

The diagram shows a network of nodes (circles) and edges (lines). A path is highlighted in red, starting from a node at the bottom left, moving up, then right, then up again, and finally right to a node at the top right. The path consists of 10 nodes and 9 edges. The nodes are arranged in a grid-like pattern, with some nodes having multiple edges connecting them. The red path highlights a specific route through the network.
