

Table A1. Analysis of cDNAs containing 16.4.1 coding sequences identified in Entrez database and their hypothetical proteins

| Acc.#    | cDNA<br>(nt) | ORF<br>(AA) | Predicted MW<br>(kDa) |
|----------|--------------|-------------|-----------------------|
| AK001545 | 2506         | 531         | 57                    |
| AK125147 | 3055         | 320         | 35                    |
| BC006456 | 1228         | 308         | 33                    |
| ABO11164 | 4623         | 1320        | 145                   |
| AL080183 | 1687         | 308         | 33                    |
| AL050279 | 2037         | 283         | 30.5                  |
| W67699   | 1101         | 164         | 18.5                  |
